ORDER

Recently this office has posted Resource Teachers to the schools of DoE with the approval of the Competent Authority. Some HoS are raising certain issues about the posting at the fag end of the Academic Session.

In this connection it's added that the Resource Teachers have been posted keeping in view of the interest of the identified and yet to be identified students with special needs studying in the schools of DoE after full consideration. All the concerned HoS are directed to allow the joining of the Resource Teachers so that they can carry out their assigned works. There may be more than one Resource Teacher in a school and one Resource Teacher may attend a school for more than once in a week.
