CIRCULAR

Complaints / representations are being received in this office stating that HOSs are resorting to checking of certificates of educational qualification / caste etc. of guest teachers afresh for giving renewal to them. In this connection it is clarified that this is simply a renewal of engagement for those who worked during the last session and their certificates have already been checked before engagement. Therefore this exercise is unnecessary and will only lead to delay.

Accordingly HOSs are directed that they shall avoid the verification of certificates at this stage. However in case if any specific complaints have been received against any guest teachers qualifications then only their certificates shall be verified, that to without loss of time.
