Receipt

Once a DAK/Letter is Diarised and a unique receipt/diary number is allotted then it becomes **Receipt**.

Diarisation of DAK/Letter

Browse and Diarise sub module of Receipt is used to generate **Receipt**, which can be either physical or electronic in nature.

- **Physical:** The unique number for the DAK/Letter is generated by the system, and further processing of the receipt can either be physical (manual) or electronic in nature.
- **Electronic:** The unique number for the DAK/Letter is generated by the system, and further processing of the receipt is always electronic in nature.

Important Points:

- ✓ Uploading of scanned document of 'DAK/Letter' is mandatory for **Electronic** diarisation and optional for **Physical** diarisation.
- ✓ DAK/Letter must be scanned as a single PDF (preferably a searchable PDF). For scanning the DAK/ letter refer to Annexure-I (<u>Guidelines for Scanning</u>).

STEPS TO FOLLOW:

1. Click **Physical/Electronic** link under **Browse & Diarize** sub-module or Click **Physical/Electronic** under **Create** link in Quick Access Menu bar for Receipt (*Figure 1*).

Figure 1

2. Click **Upload** button. The File Upload dialog box appears. Select the desired scanned PDF document (**up to 20 MB**) and click **Open**button (*Figure 2*).

Figure 2

3. Once the scanned DAK/Letter is uploaded, enter the required metadata (**Diary Details**, **Contact Details** and **Subject Category**):

Figure 3

4. Click **Generate** or **Generate & Copy** or **Generate & Send** to generate new electronic receipt with a unique **Receipt No.** (*Figure 4*).

Figure 4

Note:

- All the mandatory fields are marked with Red asterisk (*).
- User can choose one of the fields marked with Orange asterisk (*).
- Personalize Acknowledgment: There is a provision to send acknowledgement to the sender who's DAK/ letter has been received in the organization (Refer <u>Acknowledgment</u> sub-module).
- **Generate:** Creates the receipt and saves it in **'Created'** sub module.
- **Generate & Send:** Generates the Receipt No. and redirects to Receipt **Send** screen.
- **Generate & Copy:** (*This feature is configurable*): Generates the Receipt Number and redirects the user to diary screen retaining the content (PDF) and metadata (*Copying the pdf content is also configurable feature*) of the receipt.

Created Receipt List

The **Created** sub module displays the list of all generated Receipts (both **Electronic** and **Physical** in nature) that are not yet Marked/Send.

To view list of receipts created, Click **Created** sub module of **Receipt** module as shown in *Figure* 5.

Figure 5

Description:

• The Created list of receipts displays information such as, Nature of Receipt (E/P), Computer No., Receipt No., Subject, Subject Category, Created On and Enclosure/Remarks (Figure 6).

Sub-Folders under Inbox

The receipts in an Inbox can be organized by creating sub-folders under Inbox Sub module and moving these receipts into the created sub-folders. These sub-folders can be named by the user on the basis of the subject categories or various others level categorization as suitable.

Create Sub-Folders

This section describes the steps to create sub-folders under receipt Inbox.

STEPS TO FOLLOW:

1. Select Receipts from **Inbox**, to move to the new folder:

Figure 17

- 2. Click Move To→Create New Folder.
- **3.** Enter **Folder Name** in the Create Folder Popup.

Figure 18

4. Click **Save** button to create new folder and move the selected receipt into it.

Note:

- It is required to select the receipt beforehand from the receipt Inbox to create a new folder.
- Selected Receipts will move to Inbox Sub Folder.

Moving Receipt between the Folders

This section describes the process of moving receipts between the folders under receipts INBOX.

STEPS TO FOLLOW:

1. Select Receipts from the **Inbox** or the **Sub-Folder** of **Inbox** from which you wish to move the receipt.

Figure 19

- 2. Click Move To in the menu bar, Click My Folders.
- **3.** Choose the destination folder from dropdown list under **My Folders**. (*Receipt will move to selected folder*).

Sub-Folder Management

The Inbox sub-folder management primarily consists of following Actions –

- **Rename** This is useful, in case the title name of the folder is to be corrected with spelling or a more suitable title.
- **Delete** In cases where the sub-folder(s) are not required anymore, they can be deleted provided they are empty.

This section describes the steps to rename and delete a sub-folder.

1. Click Manage Folders sub menu under Move To menu in File/Receipt Inbox List page:

Figure 20

STEPS TO RENAME SUB-FOLDER NAME

2. Click **Edit** icon adjacent to Folder in List of Folders. Clicking Edit Icon will display Update Folder Pop up:

Note:

• Folder to be deleted must be empty.

Edit Receipt (P/E) Details

The editing of a receipt is to update some details/fields with additional or correct information only to make it more relevant.

This is useful when any employee has forwarded you the receipt only with little information available with them. It is important that existence of the receipts may be made more relevant with appropriate information to make their search easy and reports more meaningful.

Important Points:

- ✓ Only main Receipts available in **Inbox/Inbox Sub- Folder/Created** list can be edited.
- ✓ CCs (copies of receipt) cannot be edited. Any changes in the main receipt will be reflected in CC receipt until Main or CC receipt put inside the file.
- ✓ The uploaded document can only be replaced for receipts in Created list only.
- ✓ Physical receipts in Inbox that need be edited must be in received state.

STEPS TO FOLLOW:

1. From the Inbox/Inbox Folder/Created List –

Click receipt number to open receipt, or Right click on receipt number to 'Open' in same or 'Open in Tab' to open in different tab of the browser:

Figure 26

2. Click 'Edit' menu as shown in Figure.27:

Figure 27

3. Make the necessary changes in the **Diary Details**, **Contact Details**, **and Category& Subject** of the receipt as shown in Figure 28:

Figure 28

4. Click 'Save' to save the changes or 'Save and Send' button to save the changes.

Note:

- User will be able to edit the meta-data (Except Delivery Mode, Diary Date and Enclosure (Configurable)) of main receipt in Inbox/Inbox Folders. (CC receipt should not be editable)
- User should be able to edit Delivery Mode, Enclosure and PDF for created main receipts.

Receipt Details

The receipts details consist of all the information recorded when it was diarized into the system. These details are by far most important when it comes to knowing the history of the associated letter received and action done so far. Along with the uploaded scanned DAK of a receipt user is able to check receipt's information like it is **Subject**, **Diary Date**, **Receipt No**., list of **Drafts** prepared, List of letters **Dispatched** against it, **Attached/Detached** Receipts/Files, **Closed** History, **Movement** details, etc.

Steps to view Receipt Details:

1. Click a receipt number in Inbox/Inbox Sub-Folder/Created/Sent/Closed list as shown in Figure 29:

Figure 29

Note:

Physical receipts should be in received state to view its details in Inbox/Inbox Folder.

Description:

- **1. Menu Bar** Various actions that can be taken on the receipt are available in the menu bar. These action buttons are as follows
 - a) **Receipt Home** Displays the receipt inner page with its details. Upon clicking on the receipt number, by default, Receipt Home is opened. It is useful when you are on some other screen (example, SEND screen) in a receipt, and wish to go back to receipt inner details page.
 - b) **Movements** –Displays the movement history of the receipt from one user to another with respective movement details such as its timestamp and remarks. The most recent movement is available at the top and the first movement at the bottom of the list.
 - c) **Copy** –Copies the pre-filled diary, contact and subject details to a new diary screen. This is useful to save effort in entering details when diarizing multiple 'DAKs/Letters' from same the sender or on similar subject. With updating little information after using COPY (if required) a new receipt can be generated.

Note:

• The feature to copy the uploaded scanned document is also available and is configuration based only. This will useful when same letter is required to be diarized multiple times but with different receipt/diary numbers. This approach varies from organization to organization.

Figure 30

- d) **Send** This option allows you to send receipt to multiple other users. Clicking on it re-directs to Receipt Send screen where a user may enter other user details in TO and CC (to mark copies) along with forwarding remarks, assigning due date, priority and setting e-mail SMS alerts for the recipients and other people in previous movement for intimation.
- e) **Send Back** –This option is useful in case user wishes to send back the receipt from whom it was received. The user details in **To** field of the send screen is pre-filed by clicking **Send Back**.
- f) **Put in a File** This option allows a user to put the opened/selected receipt into a file. User may put it in to an existing file lying with the user or create a new file for it.
- g) **Draft** –This option allows a user to prepare a draft form of a communication to be issued against the receipt after it is approved and signed using the system.
- h) **Dispatch** This option is available only in case of physical receipts only to record the dispatch details against a receipt.
- i) **Edit** –The editing of a receipt is to update some details/fields with additional or correct information only to make it more relevant.
- j) **Action Details** This option allows user to View and Record their comments on Initiated actions on receipt received with Initiated Action.
- k) **Attach** This option allows user to attach the Receipts and/or Files with receipt for reference or other purposes.

- 1) **Convert** –This option is available in case of physical receipt only. It allows user to convert the physical receipt to electronic receipt.
- m) **Close** This option closes the receipt in case the action on it is complete or not required.
- n) **Print/Download** –This option allows user to download receipt attached/detached file/receipt details, closed history, corresponding draft and dispatch details with their letters and attachments, movement history, initiated action details and etc., into PDF format.
- 2. Receipt Quick Details Shares some quick information about the receipt opened, such as,
 - a) Nature Physical (P) or Electronic (E)
 - b) Computer number The unique sequence number of the receipt assigned to it when created.
 - c) Receipt Number The unique number of the receipt, in the format, sequence no./creation year/dealing_section_name
 - d) Main Subject Category The main subject category under which it belongs, chosen at the time of diarisation and can be edited later.
- **3. DAK** / **Main Letter** The letter received by the organization which was originally diarized. In case of physical receipt, it may not be available, since it is not mandatory to upload its scanned copy for tracking purpose.
- **4. Basic Details** Displays the basic details of the receipt, such as, its sender's name and address, subject, enclosure details, delivery mode, receiving date, diary date, letter date, type of communication and etc.

5. History

- a) **Dispatch** Details of issue letters dispatched against a receipt, such as, its dispatch and issue number, subject, date, dispatch by user's name and delivery mode.
- b) **Attached/Detached** Details of file(s)/receipt(s) attached and detached such as their numbers, subject, action performed by user's name, date and time of action with remarks.
- c) **Closed** Details of the number of times the receipt was closed and re-opened by user's name on specific date and time with the action remarks.

Put a Receipt inside a File

To record decisions on the note sheet against a receipt, it is necessary that the receipts may be put inside a file as correspondence. This section describes how to put up a receipt in a file.

Important Points:

- ✓ Physical receipts can be put inside a physical file only. To put it inside an electronic file it needs to be converted.
- ✓ Electronic receipts can be put inside both Electronic/Physical file, if required.
- ✓ Receipts with Attached files/receipts are not allowed to be put in file. They are required to be detached first.

Receipt Attachments

This feature is required to attach files and receipts, as required, with a receipt. In this case, the attached receipts and files are attached along with the main receipt in original and are moved along with it. This section describes the process of attaching a file or a receipt with a receipt.

Important Points:

- ✓ Files and receipts to be attached and the receipt with which it has to be attached should be in active state i.e. in **Inbox/Inbox Sub-Folder/Created.**
- ✓ Files and receipts to be attached and the receipt with main receipt must be in standalone condition i.e. not attached with other File and Receipt.
- ✓ File/Receipt in Parked/Closed/Submitted files for Closing or Reopening Approval/Approval Request will not be available for attachment.
- ✓ Physical Files and Receipts to be attached must be in received state.
- ✓ Files and Receipts to be attached must be **of same nature** (Physical/Electronic) as of the main Receipt.
- ✓ **Attached/Detached Tab** under **History** in Receipt Inner page maintains the details (such as action performed by, date, remarks and etc.) of the attached/detached files and receipts. (*Note: Attach/Detach history will not be maintained if attached Files/Receipts was detached without any movement of the main receipt)*
- ✓ With every movement of the main receipt, the movement history of the attached files and receipts are updated with the attachment remarks until they are detached.

Draft Communication

Any communication to be issued against a case or any official letter of the communication is first prepared as a draft letter which after numerous corrections (if required) is submitted for approval and then signed and dispatched. This section describes the process of creating a new draft (Draft Nature: New/Fresh, Reply, Reminder) against an electronic receipt.

Creating a Draft

Important Points:

✓ Drafts can only be created for receipts in Created/Inbox/Inbox Sub-folders and are not attached with other files or receipts.

STEPS TO FOLLOW:

1. Click open an 'Electronic Receipt' from Created/Inbox/Inbox folder list of receipts as shown in Figure .54:

Figure 54

2. Click 'Draft' in the menu bar and then Click 'Create New Draft'.

Figure 55

- **3.** Prepare the draft content of the communication on the left side of the screen. The draft content can be prepared by
 - a) Using Templates Preparing content by choosing pre-defined templates i.e. the letter-heads with pre-defined format and content of specific nature.
 - **b) Upload Letter** Preparing the letter on your system using word processor (like MS Word) and then uploading it into the system. (.doc/.docx extension file Word format)
 - c) Prepare using online editor Preparing content by typing and/or pasting from another document file.

Figure 56

Note:

- The content prepared by uploading a document can only be edited by downloading it using Download option, then make changes in the downloaded document and re-uploading it.
- Content prepared using online text editor can be edited in the same window.
- 4. Insert Hash '#' Tags wherever necessary.

Note:

- **Hash '#' tags** are used to auto-insert the 'Approving authority's' details in the content of the draft being prepared. These details include Approving authority's Name, Post, Approved date and etc.
- Hash '#' Tags can only be added to the content built in templates used and with content prepared using online text editor.
- 5. Add annexure using 'Attachment' option, if required.
- **6.** Check 'Enable Multi Sign' checkbox, if required.

Figure 57

Note:

- 'Enable Multi Sign' allows multiple users to digitally sign on the same approved draft.
- 'Ink Sign' option is not available in case multi sign is enabled.
- **7.** Fill in the 'Draft details' on the right side of the screen. Drafts details include Draft Nature, Reply Type, Forms of Communication, Prefix, Language, Subject Category, Sub Category and Subject description.

Note:

- 'Draft Nature' Choose -
 - **New/Fresh** If the draft is being prepared as fresh communication being initiated.
 - **Reply** If the draft is being prepared as a reply against the receipt.
 - **Reminder** If the draft is being prepared as a reminder to the previously dispatched communications against the receipt.
- 'Draft Nature' 'Reminder' only available if any Issue/Official communication has been already dispatched against the receipt.
- By default, 'Reply' is selected as 'Draft Nature'. Upon selecting 'New/Fresh' the 'DAK/Letter' sender details added as recipient details are removed.
- **8.** Click **Add/Edit Recipients** to add recipients' details.
- **9.** Click **Save** to save the draft.

Once the draft is saved, a unique number is generated and draft is added to the list of drafts in the receipt.

Figure 58

Note:

- The state of the draft created remains to be 'DFA' (Draft for Approval) until it is approved.
- After creating the draft, a draft number is generated of following format DFA/<sequence Number> where, DFA stands for Draft for Approval. And a running sequence number is allotted to it.

- ✓ 'Remove' option is available for all listed employees.

There are three domains from which recipients can be added. Let us see them all one by one,

- a) Public (selected by default)
- b) Intra eOffice
- c) Inter eOffice / Other Applications
- a) <u>Public</u> This is the domain of people who are outside the organization for example citizens, people from other private organizations and officials of government bodies where eOffice to eOffice transactions are not taking place (also known as inter eOffice movement). The user details can be added under two tabs 'User' and 'Groups' –

User

Under this tab, recipient can be added by choosing 'New' or 'Existing'.

1. 'New' allow you to add user's details in the fields below such as name, address, contact and etc. and then to further add into recipient list by clicking on Add at the bottom.

Figure 74

- 2. 'Existing' allow adding users from the already maintained address books. There are four types of address books available 'Self', 'Section', 'Department' and 'Instance'.
- **3.** Choose the address book by clicking on the down arrow in the 'Search Here' box and then enter the recipient name in the search box.

Figure 75

- **4.** Based on the characters of recipient name entered in the search box, suggestion list will appear.
- 5. Choose the appropriate recipient(s) and then Click **Add**.

Groups

Under this tab, recipients can be added from already created groups.

1. In the first drop-down list, choose the **type/scope of the address book group ('Self', 'Section'**, **'Department'** and **'Instance'**) from which you wish to add recipient(s).

Figure 76

2. In the next drop-down, choose the name of the group from which you wish to add recipients.

Figure 77

3. The list of contacts already added in the group will be listed below, under 'All Contacts under Group' and select the recipients you wish to add as shown in Figure.78:

Figure 78

4. Click **Add** as shown in Figure 79:

Figure 79

- b) <u>Intra eOffice</u>— This is the domain of employees in user's own Ministry/Organization. This can be used to add recipients who are from one's own organization, for example, for issuing inter-office memo.
 - 1. In the first drop-down menu, choose the name of the department, to which the intended employee/recipient belongs to.

Figure 80

- **2.** Enter the **recipient name** in the search box.
- **3.** Based on the characters of recipient name entered in the search box, suggestion list will appear. Choose the appropriate recipient(s) as shown in Figure.81:

Initiate Action (P/E)

The 'Initiate Action' feature is useful when a user wishes to keep a check/follow-up on the actions taken place on a receipt when it is still in the movement of channel of submission without having to call back the receipt every time. This is called as '*initiating an action on a receipt*'.

The action can be initiated by a user for the receipts while forwarding them or for the ones which have been already sent. The recipients of such receipts (in the movement of the receipt) can then add their comments or record their inputs, which, cab be then reviewed by the initiator against every movement.

This feature is useful, in cases, for example, when the head of the organization/department receives a letter of important category, and plans to monitor the inputs of the employees towards the disposal of the letter, by reviewing their comments recorded at every movement.

'Initiate Action' primarily consists of -

- 1. **Initiating an Action** Initiated against the receipt by the initiator for review **while forwarding**.
- 2. Recording Comments/Action Details Users recording their comments with every movement of receipt received with Initiated Action.
- 3. **Review / Initiated Action Details** Reviewing the comments recorded with every movement, by the initiator.
- **4.** Close Initiated Action The action initiated on a receipt can later be then closed, as required.

This section describes the process of initiating a cycle of actions while forwarding a receipt or on already sent receipt.

Important Points:

- ✓ Action on receipts in sent box, can only be Initiated for the ones in active state (not closed).
- ✓ Multiple Actions cannot be initiated on a receipt, only one at a time.
- \checkmark Initiate action is a configuration-based feature. Available, if the configuration is enabled.

Initiate Action on File

This feature is useful when a user wishes to keep a check/follow-up on the actions taken place on a file when it is still in the movement of channel of submission without having to call back the file every time. This is called as 'initiating an action on a file'.

The action can be initiated by a user while forwarding file or for the ones which have been already sent. The recipients of such file can then add their comments or record their inputs, which can be then reviewed by the initiator against every movement.

This feature is useful, in cases, when the head of the organization/department plans to monitor the inputs of the employees towards the disposal of file, by reviewing their comments recorded at every movement.

'Initiate Action' primarily consists of –

- 1. **Initiating an Action** Initiated against the receipt by the initiator for review **while forwarding**.
- 2. Adding Comments/Action Details Users recording their comments with every movement of receipt received with INITIATED ACTION.
- **3. Review/Initiated Action Details** Reviewing the comments recorded with every movement, **by** the initiator.
- **4.** Close Initiated Action The action initiated on a receipt can later be then closed, as required.

Initiate Action

This section describes the process of initiating a cycle of actions while forwarding a receipt or on already sent receipt.

Important Points:

- ✓ File must be available in file Inbox/Inbox Folders/Created list.

Address Book

The address book is a book used for storing entries called contacts. Each contact's relevant information like Name, Designation, Address, Contact information and etc. is maintained in an address book. The address book makes it easy to retrieve the contact details while diarisation and maintaining list of recipients while preparing 'Draft for Approval'/External communication/Dispatch.

This section describes the steps to add contacts to address book and preparing groups of contacts from address book.

Adding Contacts to Address Book

Important Points:

- ✓ User must have necessary privileges for accessing Address Book or Diary page in eFile.
- ✓ User must have necessary role to add VIP contact
- ✓ Address book Levels must be assigned.
- ✓ Scopes in Address book –

There are four levels/scopes of address book available which define its creation and availability under that domain only. These four scopes are –

Self – Add and available to user who added only.

Section – Added by a user and available to the user's section/office users also.

Department – Added by user and available to the user's department users also.

Instance – Added by user and available to all of the users in the entire organization.

STEPS TO FOLLOW:

1. Under 'Settings' module, click on 'Address book'.

Figure 440

2. Under 'Contacts' tab, click on 'Add Contact'. Add contact form opens on right side of the window.

Figure 441

- 3. Select 'Add To' Address Book Level/Scope.
- 4. Fill in the Contact Details. (Name and Address field mandatory for NON-CRU users).
- **5.** Click on 'Save' to create the new contact.

Alternatively: Adding Contact Details from Receipt Diary Page:

- 1. Under 'Browse & Diarize' in 'Receipts' module, click on 'Electronic' or click on 'Electronic' under 'Create' link in Quick Access Menu bar. This will redirect to 'Diary' page.
- **2.** Upload the scanned copy (PDF format only) of the inward document. (**Mandatory*** in case of '**Electronic**' option only.)
- 3. Enter the diary details corresponding to the inward letter, categorized as 'Diary Details', 'Contact Details' and 'Subject Category'.
- 4. In Contact Details select Add to Address Book checkbox.
- 5. After adding 'Contact Details', click on 'Address book' icon, next to 'Name' field and choose the required scope of 'Address Book'.
- **6.** Click on 'Generate' or 'Generate & Copy' or 'Generate & Send' to generate new electronic receipt with a unique 'receipt number'.

- Contact person details will be displayed as autofill suggestions while entering name during diarization.
- User will be able to **Search** and **Add** the existing contact under Public recipient (User) category of recipients while preparing 'Draft for Approval'/Dispatch.

Editing Contacts in Address Book

Preferences

The purpose of the 'Preferences' is to enable users to configure certain views and alerts in user settings as per user to user convenience. This section describes how to set user preferences and the various preference options available.

STEPS TO FOLLOW:

1. Under 'Settings' module, click on 'Preferences'.

Figure 443

2. Choose the required options as per your preferences. (For details, refer below)

Figure 444

3. Click on 'Save' Button.

Preferences in Detail -

1. Alert Settings – The alerts can be enabled for the incoming Files, Receipts and Dispatches. The alert modes available are 'Email' only, 'SMS' only and 'both' and can be set independently for physical and electronic files, receipts and dispatches.

For example, as shown in **Figure 444**, for incoming physical files the alert mode is set to 'SMS' and for electronic files it is set to 'Both' Email and SMS.

Whereas alerts for receipts (physical and electronic) are disabled by unchecking receipts altogether.

For physical incoming dispatches the alerts are disabled by unchecking 'physical' option against it whereas 'Both' Email and SMS alerts are enabled for incoming 'Electronic Dispatches'.

- **2.** Correspondence/Draft View Settings The right side view of the electronic file inner page can be set to default to any one of the following views
 - a. **TOC** Table of contents view for the list of correspondences
 - b. **All Correspondence** A combined 'PDF' view of all the correspondences attached in a file.
 - c. **Recent** The 'PDF' view of the last correspondence attached to the file.
 - d. **Draft List** The 'List of Drafts' view of all the drafts present in the file.
 - e. **All Drafts** A Combined PDF view of all Drafts attached in File.
 - f. **Previous Notings** The view of the previous notes in the file.
 - g. **References** The list of all the references attached as annexure with the file.

Note:

- The above mentioned preferences for 'Correspondence/Draft View Settings' are for Electronic files only. The Physical files will display TOC for any Correspondence/Draft view settings chosen except for references which will show list of all references attached as annexure.
- By default, 'Recent' is selected in 'Correspondence/Draft View Settings'.
- 3. Listing View The preference view of the list of records of receipts and files available in user's Inbox.
 - a. View -

Row Based – The row-wise list of records of 'Files' and 'Receipts' unlike details of records stacked in a columnar approach. This gives better on-screen space utilization for displaying maximum records.

Column Based – The traditional column-wise list of records for 'Files' and 'Receipts' where the details of the records are stacked in a columnar approach.

b. **Scope** – The list view of the files/receipts records available in user's Inbox as per the following scopes available –

Self – List of signed-in user's records only

Section – List of signed-in user's records along with the records of other users of the same section/office.

Hierarchy – List of logged in user's records along with the records of other users in the hierarchy of the signed-in user.

- The 'Section' and 'Hierarchy' scope of the listing scope as mentioned above only gives the records view of receipts/files available in the Inbox of the users of the same Section/Office and users in the hierarchy of the signed-in user respectively. The view does not allow the user to click open to view further details inside. The contents of the receipts/files can only be checked by the user with whom it is available/present.
- By Default 'Row-Based' view and 'Self' scope is selected in the listing view.
- **4. Notify for Blank noting** Enabling this will give an alert message when forwarding a file with a blank note. This alert is required in case the user forgets to add note to file before forwarding or when unintentionally the content is deleted completely.
- **5. PDF Viewer** This preference enables user to choose whether to view the respective PDFs using the PDF viewer of the eOffice application or the one available with the browser.

Section Assignment

Important Points:

✓ This feature is available with the user assigned with 'ADMINISTRATOR' privileges only.

The 'Section Assignment' is the transferring of the dealing rights on a file or set of files from its current dealing section to other section. It is the changing the ownership on the file(s) and its closing/re-reopening rights. This is required in case-scenarios where,

- A specific case-file or subject(s) head has been reassigned to some other section/office/unit.
- The two section/units are merged into one therefore changing the ownership of the files to the new section/unit created.
- A section/unit is divided into two on the aspect of better administration and hence dividing the work allocation and assigning new ownership rights of the case-files.
- This section describes the steps to reassign the dealing rights to another section of the files searched on the basis of file/computer number, subject, subject category or the file subject-heads.

STEPS TO FOLLOW:

1. Under 'Settings' module, click on 'Section Assignment'.

Figure 445

2. Select Department and Dealing Rights From (section name from which dealing rights are to be transferred) by clicking on Combo-box.

Note:

- View History Icon should be available for all instances with any status except for a fresh request.
- In a pop-up box, the history of various actions performed on registration of the respective Instance will appear.

Search Privilege

Important Points:

✓ This feature is available with the user assigned with 'ADMINISTRATOR' privileges only.

The use of search system is required to provide users with search results that lead to relevant information in their daily tasks. For example, a user might want to search whereabouts of a file initiated in his/her own section in order to take follow up on its status.

Whereas another user might want to check out the whereabouts of a file which was not in his/her channel of submission.

The question here is, should this be allowed. One might say that it may only be allowed to be searched upon since the dealing section of that particular file comes under his/her administration however this may not be the case every time. Hence defining the scope of search for complete organization is required.

The 'Search Privilege' is the defining of the scope of search for 'Files', 'Receipts' and 'Issues', and can be set differently for 'Physical' and 'Electronic' entities. There are eight types of scope of search and action on them available as mentioned below –

S. No.	Scope Name	Description
1.	Global	It refers to domain of users of entire Ministry/Organization i.e. users of all of the departments created within the eOffice instance.
2.	Department	It refers to the domain of users of the signed-in user's Department only.
3.	Section Hierarchy	It refers to the domain of users of the signed-in user's own office/section and section(s)/office(s) in its hierarchy.
4.	Section	It refers to the domain of users of the signed-in user's own office/section.
5.	Post Hierarchy	It refers to the individual signed-in user and the individuals in user's direct post hierarchy.
6.	Individual	It refers to the individual signed-in user only.
7.	Post Hierarchy And Section	It refers to the individual signed-in user, the individuals in user's direct post hierarchy and section/office.
8.	Post Hierarchy And Section Hierarchy	It refers to the individual signed-in user, the individuals in user's direct post hierarchy, users of own office/section and office(s)/section(s) in its hierarchy.

The scopes mentioned above can be set in two ways –

• **Search Scope** – It defines the scope of search of physical/electronic Files, Receipts and Issues.

• **Action Scope** – It defines the scope of action (for example PULL-UP) that can be taken on the files, receipts and issues from the search results.

Let us understand with different case scenarios –

Case Scenario I

Search Scope - Department

Action Scope – Section

Explanation: Under this case scenario, a user can search the Files/Receipts/Issues of users of the same department however can only pull-up those which are with the users of his/her own section.

Case Scenario II

Search Scope – Section Hierarchy

Action Scope – Post Hierarchy

Explanation: Under this case scenario, a user can search the Files/Receipts/Issues of the user'sown office/section and section(s)/office(s) in its hierarchy. However, can only pull-up those which are with the users under his/her post's direct hierarchy.

These privileges can be defined in two ways but are not alternate to each other -

- 1. **For Instance** This option is used to define the default search and the action scope for all of the users of the Ministry/Organization at once.
- **2. User wise** This option is used to exceptionally change the search and the action scope of specific user(s) from default values (as defined for the instance). For example, this may be required for particularly for a senior official in the administration to change action scope from section to department as discussed above in case scenario I, so that the person can search and pull-up a file from any individual of his/her department.

Setting Search Privilege For Instance

This section describes the steps to define 'Search Privilege' for all users of a Ministry/Organization (i.e. for complete Instance).

Annexure-I

Guidelines for Scanning Document

The objective of scanning guidelines is to scan and bring the physical daks/letters and other documents into the electronic system in the least possible size, so as to facilitate quick and easy retrieval of eFiles from the server/system.

For Physical DAK or Inward Correspondence -

Scan the whole DAK/inward correspondence as single pdf only (preferably as searchable pdf). The size should not exceed 20MB.

While Migration of physical files -

Scan all the required files in following manner –

1.	Correspondence:
	The Receipts, References and Issues on the correspondence side may be scanned as single PDF document keeping check on the max size as 20 MB.
	If pages are more and size exceeds 20MB then more than one PDF should be created.
1.	Noting:
	Scan all the pages of the Noting as one single PDF document.

For scanning of various document types, the following colour & DPI are suggested:

Sl. No.	Document type/Condition	Color & DPI	Output Format
1	Regular/normal/good	B/W-100 dpi	PDF
2	Damaged/tarnished/clouded	B/W- increase DPI as per legibility / visibility	PDF
3	Seriously damaged/tarnished/clouded	B/W- increase DPI as per legibility / visibility	PDF
4	Coloured Photographs/text	Grayscale	PDF
