DO No. 12018/16/2025-AIM

Date: 24.07.2025

Dear State Nodal Officer,

Atal Innovation Mission (AIM), NITI Aayog, and The Department of School Education and Literacy, Ministry of Education, are jointly organizing a **Mega Tinkering Day** on **12th August 2025**. This flagship national event aims to bring together students from both ATL and non-ATL schools in a synchronized hands-on innovation activity. The initiative seeks to spark curiosity, creativity, and a spirit of problem-solving among lakhs of students through experiential learning.

2. Mega Tinkering Day is a One day nationwide event where students from across India will build an Innovation project together for 30 minutes. It will offer a unique opportunity for schools, educators, and officials to engage young minds, gain national visibility, and celebrate India's spirit of creativity. The materials required to build the project would already be present in the ATL lab of the school.
3. You are requested to ensure maximum participation from schools across your State by extending the necessary support and guidance to school teams in planning and executing the event. Encouraging participation from all ATL schools and motivating non-ATL schools to join the celebration will be crucial in achieving the intended impact.
4. It is also requested that district- and block-level officials be directed to support event preparations and visit schools on the day of the event.
5. Your personal presence at any one school on Mega Tinkering Day will greatly encourage the participation of students, teachers, and local officials.
6. The required links for the participating schools are:
 - i. **Registration form** -
<https://docs.google.com/forms/d/e/1FAIpQLSfIZENSfNvrvknaf9Hhsq3XhUEZh4WvE3wOJM10J8VwTKgtlg/viewform?usp=header>
 - ii. **Contest Submission** -
<https://docs.google.com/forms/d/e/1FAIpQLSdVUI7ZTdmj0zkKVMFHZO2sVD6PPzH1IFb9Xd77z5pbxiuFGA/viewform?usp=dialog>
7. To apprise you of the event details and the nature of support being sought from states, a **VC has been scheduled on 4th August, 2025 at 4:00 PM.**
8. The event collateral is attached herewith for your ready reference. Thank you for your continued support and cooperation.

With Warm Regards,

Deepali Upadhyay
Program Lead
Atal Innovation Mission

एक कदम स्वच्छता की ओर

Mega Tinkering Day – 12th August 2025

Atal Innovation Mission (AIM), NITI Aayog promotes a culture of innovation and entrepreneurship across India. A key initiative under AIM, Atal Tinkering Labs (ATLs), are state-of-the-art makerspaces in schools that foster curiosity and innovation among students from grades 6 to 12 through hands-on exposure to cutting-edge tools like 3D printers, IoT kits, robotics, and miniaturized electronics. Till now 10,000 ATLs have been set up across 35 states and union territories, spanning 722 districts, with more than 1.1 crore students actively participating and contributing to over 16 lakh innovation projects. Government or government-aided schools and girls/co-ed schools account for over 60% and 96% of ATL adoption, respectively, ensuring inclusive reach.

To celebrate and further drive the remarkable progress India has made in nurturing a spirit of innovation and creativity among school students, the Atal Innovation Mission is celebrating Mega Tinkering Day on **August 12, 2025**. This nationwide initiative aims to highlight the growing impact of Atal Tinkering Labs in empowering young minds through hands-on learning and technological exploration. Mega Tinkering Day aims to bring together all 10,000 Atal Tinkering Lab schools and associated stakeholders - all students, ATL in-charges, State Nodal Officers, mentors, principals and partners, reinforcing the vision of making “Tinkering” and innovation a nationwide movement. It is a one-day nationwide event where all 10,000 ATLs come together to build a Do-It-Yourself project simultaneously for 1 hour.

Objectives

The objectives of the Mega Tinkering Day are -

- Promote Innovation Spirit among students
- Build a simple Tinkering Project together in a group
- Be a part of India's Largest Tinkering Event

Activity

Schools from across the country, along with their students, ATL in-charges, principals, mentors, AIM team, and partners, will participate in the event virtually from their respective ATLs. In this event, participating students all across India will build an innovative project together in one of the largest ever global tinkering events done collectively in a single day. **During this event, all ATLs across India will build a small**

tinkering project together for 1 hour. The materials needed to build the project would already be present in the ATL lab of the school. As part of the event, students will be explained the scientific concept behind the project and will be shown the steps online for building the project using equipment from the ATL. This project building activity will be aimed at developing the attitude and aptitude to experiment and tinker amongst young students, and also give a kickstart to the tinkering activities for the upcoming academic year. These schools will then be invited to participate in a contest where they will share pictures and videos of the tinkering activity done in their schools.

Impact

The event will showcase the power of collaborative, hands-on learning at scale. It is a celebration of the innovation ecosystem across India. The goal is to drive the saturation of tinkering in India at the school level—embedding curiosity, creativity, and problem-solving in every district.

Glimpses from the last edition

In 2022, Mega Tinkering Day was celebrated on Children's Day. The event marked a collective celebration of creativity, science, and innovation on a magnum opus scale. Over 1.5 lakh students from 1500+ schools participated virtually, building hand-held fans using ATL innovation tools. Guided by mentors, they explored core STEM concepts through hands-on learning. Many went beyond, integrating 3D printing, robotics, and renewable energy, showcasing real-world problem-solving.

Mega Tinkering Day

12th August 2025

Innovation Begins with a Spark — Let's Ignite It!

Mega Tinkering Day 2025

Imagine thousands of young minds building, tinkering, and creating all at the same time. That's what Mega Tinkering Day is all about!

Across 10,000+ ATLs, students will roll up their sleeves for a DIY project challenge, using materials available in the labs.

It's a powerful reminder that innovation begins when imagination meets action.

Gear Up to Innovate

Your 5-Step Mega Tinkering Day Roadmap

Prepare & Inspire

- Students explore projects using Atal Tinkering Lab resources.
- Teachers guide, set expectations, and inspire curiosity along with innovation.

1

Create & Collaborate

- Students actively build projects in teams and learning by doing.
- Teachers and mentors guide, encourage, and capture creative moments.

2

3

Showcase & Celebrate

- Teachers and mentors join online celebrations with AIM and other schools, sharing live project updates via Zoom.
- Schools post event highlights on social media and tag AIM to showcase student efforts.

4

Reflect & Share

- Post-event, schools compile a brief report on the activity and key outcomes.
- Submit the report highlighting student learnings.

Continue the Spark

- Schools use the momentum to inspire continued tinkering and innovation.
- They integrate these learnings into regular Atal Tinkering Lab activities.
